

SVA160 A 100 - One-piece cast-resin current transformer for earth fault detection

One-piece cast-resin CT suitable to put on cable or cable bushing: Type SVA for earth fault detection. With a maximum cable diameter of 100mm.

Technical specifications

Type	SVA160A100
Ratio	100/1A or 60/1A other ratio possible
Burden	2,5VA at prim. 100A
Class	special for directed Earth fault
Angle error at 10% of the Nominal current	< 120 Minutes
Insulation level	0,72/3/-kV
Nominal frequent lth	50/60 Hz
Standard	Max. 60kA/1s
Insulation class	IEC 61869-2
Temperature	E
Weight	-10...+55°C ca. 2kg
Ground plate	Aluminum
Terminal box	Polycarbonate
Protection class	IP54
Cable bushing	PG11
